NEW POLICE STATION IN THE FIFTEENTH WARD .-The new Police Station of the Fifteenth Preclect having been completed early last week, was immediately taken possession of by the force of that district. The new house is located on the west side of Mercer street between Ami y and Fourth streets up in the site of the old station, and has been constructed n t only with a view to the convenience and comfor of the men, but the care of prisoners who may be tempora ily confined ther-ip. A short flight of steps from the street leads to the office which is quite spacious, aff rding ample desk-to m for the officers, and space enough for the

men to form in line. Opposite t'e desk is a bedroom and private office for the Captain, while toward the year are two rooms for the Serge auts. In the basement is a large apartment, where the men ean dry their clothes after coming from duty on stormy nights, a room for the four roundsmen, and but a dozen cetts for the better class of prisoners In addition to the office and officer's room on the first floor, there is a large sitting-room for the men. The second and third theor are taid off as dermitories for the men one floors being set apart for each platoon. Each fl or has a bath-room and spacious closus or war irobes

for every man of the force. The fourth floor forms one large open room for drilling and exercising the men. The most important improvement in the construction of this S ation-H due is the pisen, which eccopies a separate building on the rear of the lots, and is isolated. It is two stories in hight, and on the ground floor presents a row of cells backing each other, the coridor extending around the column. The second floor also contains a number of mall cells, and several larger on a for the accommo ation of lodgers. Every attention has been paid to ventilation, and the appointmen a for closing the place

are excellent.

ARREST OF JUVENILE BURGLARS -Sergeant Craft and Officers Kerrigan and Curran of the Second Precinct Police, captured five boyes on Friday night, hortly after they had attempted to commit a burglary at the store of John Dillon. No 9 Pearl street. They were found in a stable, in John street. The names of the accessed are Charles McLaughlin, aged 14; Joseph Campbell, aged 16; John Mulligan, aged 18; Edward Duffy, aged 17, and John Canfield, aged 18. Toey were brought before Justice C rawell, on Saturlay, when Mulligan confessed that they, in connection with others had formed an association for the purpose of committing burglaries, and that during the last six weeks they had robbed the following places: A feed store, corner of Plymonth and Jay streets, owned by James Smith; the brass foundary of R. & R. M. Greeves; the foundary of Mayo & Whit aker; a grocary store, corner of Bridge and John streets; the bu cher shop of P. S. Baun's kindling wood mar of at ry. Fr. m \$5 to \$100 worth of property was taken from each place. The accused were all committed to await the action of the Grand Jury.

CAPTURE OF AN ESCAPED CONVICT .- One of the convicts who, with thi teen others, escaped from the Kiro's County Penitentiary some three weeks since, was captured by Capt. McClane of the Eighth Ward Police on Saturday night. From information obtained tre Cartain was led to believe that the prisoner, whose name is Thomas Quade, was staying at a house in Nineteenth street, near Seventh avenue. On reaching the house the prisoner observed the officer and sought to escape by mounti g to the roof, where he was de-tected in his night clothes. The prisoner states that four teen convicts escaped-that as soon as they reached the woods they divided into parties of two or three. The party the prisoner was with climbed a tree, and t' e keepers in their pursuit passed by without observing them. For three days they lived on such fruit as they could find, and had become so much exhausted as to seriously consider the propriety of surrendering

themselves.

They had in the meantime relieved themselves o their irons by means of spikes taken from the vailroad track. This process appears to have been tedious, bu having been accomplished, they sallied out of the woods at night, and calling at the house of a man with whom one of them was acquainted, were provided with clothing. Other friends provided them with a little money, and they went to the Astoria ferry, where they crossed. They had no sooner got on board than My Dear Companions: I beg to inform you that I might abe not myself from this city. DETENTION OF PERSONAL PROPERTY BY BOARDING House Keepers,-At the last session of the Legida ture, an act was passed entitled "An act for the protection of boarding-house keepers," which provides that "the keeper of a boarding-house shall have the same lien upon and right to detain the baggage and effects of any boarder, for the amount which may be due for board by such boarder, to the same extent and in the same maoner as innkeepers have such hen and right of detention " Under this law, many keepers of boarding-houses have undertaken to become their own bailiffs, and have seized upon and detained the baggage and wearing apparel of their boarders. It will be observed that the statute gives "the same lien to the some extent and in the same manner as ionkeepers.

The general impression always has been that in this State innkeepers had no right to detain the baggage of a guest for board. There is no statute giving such right, and the several exemption statutes evidence.

abrogate any common law right to do so, if any surfigit ever existed. The question is now about being tried in an action in the City Court of Brooktyn. It appears that Mr. W. H. Hamblia, an actor, who was out of an engagement, applied to Mrs. Edzabett Allen, who keeps a boarding house in Williamsburg and with whom he had boarded before for board for himself and wife on cred t, and until he could obtain a engagement, to which, as stated, she agreed, and old so form sh him with board. When this law was passed be owne Mrs. Allen nearly \$100, and she refused to boar i him lor ger. As alleged, she seized on and detained ais own at d his wife's the strical wardrobe, which is of the value of about \$250, and also a lot of family pistures. He, in course of time, obtained an engagement, but which he could not falfill without his wardrobe, which he could not rulhii without his wardrobe, and applied to Mrs. Allen for it, offering security for the claim. This she defined to a cept, and would not give up the property. He then offered to leave his wife's wardrobe and the paintings, and also to give her an accepted order on his mistager for all its weekly saary, except his necessary expenses—but the lady was inexerable. In this situation, being deprived of the means of fulfiling his engagement by the detention of his wardrobe. filing his engagement by the detention of his wardrob he constited connect, and was advised to commence an action, which he did, and the goods were replevied. Within the time, however, which the Sheriff is required by law to deain property taken in such cases, before delivering it up, Mrs. Allen appears to defend, and delivering it up, Mirs. Allen sppears to delend, and gives a counter bond to hold the goods: whersupon a third party, who claims title to the property under a bill of sale executed to aim by Hamblin, comes forward and asserts his claim uncer the 216th section of the Code. He demanded and obtained possession of the property and carried it away. This will be the firstical under the new Boarding Souse Law, and it is anticipated that it will be so tried that the public will have the benefit of a judicial construction of its provisions.

### CITY REAL ESTATE.

REPORT OF CONTROLLER HAWS. CITY OF NEW-YORK, DEPARTMENT OF FINANCE, ECONTROLLER'S OFFICE, July 25 1860.

To the Communication of the Sinking Fund of the City of New

To the Commissioners of the Staking Fund of the City of New-York:

In pursuance of the resolution adopted by your Board on the 28th of December, 1859, the Controller respectfully reports that he has performed the duty seeigned to him, and herewith submits twelve lies and naps, which are believed to embrace all the real estat-owned by the Corporation, with the exception of the exclusively used by the Cr. ton and doct, extending from Eighty-lifty street to and including Croton Lake,

from Eighty-lifty screet to and including Croton Lake, which has not been included in the present statement, because the extent of it would a most or quite forbid its an angement in forms corresponding with the present, at date because the time which would be required to aximite and arrange so long a divaried a set of tiles, would delev the publication of the more important part of the subject for several months.

It appears proper here to remark, that there is other property belonging to the Corporation not included in this list, because it is not properly real estate, as it consists of nignanted ground below high-water mark along various ports of the shores of the city, which is subject to the precaptive rights of the aljucent owners, and also some estate in the old roads on the island which have been closed, or soon will be, by the prowhich have been closed, or soon will be, by the pro-

gress of improvements.

The last list of Corroration real estate, with maps The last list of Corroration real estate, with maps snuexed, were published in the year 1888, and since that tine as immense pro, erry has been purchased and much of what was then owned has been sold. To examine lists and prepare maps, has required all the time which has charsed lince the resolution was passed; and it is confidently believed that the result of the work will be a cashing to the city of many thousands of dollars worth of property which might otherwise, by the frequent charges of officials, be lost eight of.

The property subject to leases, Map No 1, is much less then formerly, owing to the large amount sold officials and the Common Lands, Maps Nos. 2 and 3, are very much reduced from the same can equal the absorption of much of it by the Central Park. It is discovered by the investigations made for this purpose.

d scovered by the investigations made for this purpose that a valuable portion of what remains is in the possessin of other pattes, against whom suit was commence by the Corporation nearly twenty-three years since, but has not yet been determined, and special directions will be given that the question be vigorously preserved for the city.

presecuted for the city.
In the preparation of List and Map No. 4, of Sundry Lots, preports at Williamsburgh, acquired in 1852, worth at least \$50,000 was discovered, which had never tone been entered on the lis s of real estate.

before been entered on the he so of real estate.

Map and List No 5 embrace all the property in use
by the Almshouse Department, and Nos. 6 and 7 that
nose by the Board of Education. The latter he sheen
wholly added to the real estate list since the year 1843,
and is now very extensive. Nos. 8 and 9 of property
in use by the Fire Department has been very extensively added to within a few years.

in use by the Fire Department has been very extensively added to within a few years.

The market proper y embraced on List and Map No. 10 has not been intrased since 1838 except by the West Washington Market ground, and the purchase of land from R. W. Lowber between Sixteenth street and Seventeenth street, and Avenue C and East River,

which yet remains unoccupied.
With the exception of lots Nos. 5, 7, 11, and 17, on With the exception of fors Nos. 5, 7, 11, and 17, on List and Map No. 11, all the property there shown in use by the P lice Department has been acquired since the year 18.8; and Central Park, Mathatanosquare, Mount Merris, Reservoir square, Madison square, and the small parks at Grove and Christophersal sets, also at Fourth avenue, Seventh-street, and Taird svenue, and at Broadway Twenty-fifth street, and Fifth avenue, have be a added to the list of squares and pake, Map No 12, since that time. The property known as "Fer Ganseycort' has not

been included in the foregoing list, for the reason that the question of the valionty of its conveyance by the Corporation has not been finally determined.

In the preparation of the following maps and dia-grams, the Controller has availed himself of the pri-fessions service of M. John J. Serrell, log and favor-ula keep and the controller has a server of the priably known as one of our principal city surveyors, whose former connection with the department of finance, and familiar acquaintance with the real estate the Corporation, eminently qualified him to perform a work, which has been executed in a highly credit ble manner.
The lists facing the maps, showing the location and

size of lets, days of conveyance to the Corporation and by whom, the consideration paid for the same, and the volume and folio where the deeds are recorded it the Registrar's office, have been prepared by Mr. A Cady, who has long been connected with, and is ill an officer in this department. Resp. ctfully submitted, ROBERT T. HAWS, Controller.
